Research Papers

Runoff modelling for snow-affected catchments in the Australian alpine region, eastern Victoria
S.Yu. Schreider, P.H. Whetton, A.J. Jakeman and A.B. Pittock 1

ENSO and the natural variability in the flow of tropical rivers
K.N. Amarasekera, R.F. Lee, E.R. Williams, E.A.B. Eltahir 24

Classification of rainfall into small- and large-scale events by statistical pattern recognition
T. Skaugen 40

An urban hydrological model with high spatial resolution rainfall from a meteorological model
J. Thielen and J.-D. Creutin 58

Runoff generation processes estimated from hydrological observations on a steep forested hillslope with a thin soil layer
M. Tani 84

Estimation of groundwater evaporation and salt flux from Owens Lake, California, USA
S.W. Tyler, S. Kranz, M.B. Parlange, J. Albertson, G.G. Katul, G.F. Cochran, B.A. Lyles and G. Holder 110

Water uptake by two river red gum (*Eucalyptus camaldulensis*) clones in a discharge site plantation in the Western Australian wheatbelt
J.K. Marshall, A.L. Morgan, K. Akilan, R.C.C. Farrell and D.T. Bell 136

Development and application of an analytical model of stream/aquifer interaction
S.R. Workman, S.E. Serrano and K. Liberty 149

A non-linear perturbation model considering catchment wetness and its application in river flow forecasting
J. Xia, K.M. O'Connor, R.K. Kachroo and G.C. Liang 164

Modelling of nitrate leaching from arable land into unsaturated soil and chalk 1. Development of a management model for applications of sewage sludge and fertilizer
R.J. Andrews, J.W. Lloyd and D.N. Lerner 179

Modelling of nitrate leaching from arable land into unsaturated soil and chalk 2. Model confirmation and application to agricultural and sewage sludge management
R.J. Andrews, J.W. Lloyd and D.N. Lerner 198

Generalized conceptual modeling of dimensionless overland flow hydrographs
V.M. Ponce, O.I. Cordero-Braña and S.Y. Hasenin 222

Optimal weighting in the finite difference solution of the convection–dispersion equation
H.Q. Wang and M. Lacroix 228

The errors in surface runoff prediction by neglecting the relationship between infiltration rate and overland flow depth
R. Wallach, G. Grigorin and J. Rivlin (Byk) 243

Rainfall interception from a lowland tropical rainforest in Brunei
A.P. Dykes 260

Fractal analysis of flow of the river Warta
M. Radziejewski and Z.W. Kundzewicz 280

Extreme value theory based on the r largest annual events: a robust approach
D.J. Dupuis 295

The identifiability of parameters in a water quality model of the Biebrza River, Poland
M. van der Perk and M.F.P. Bierkens 307

Observations of particle movement in a monitoring well using the colloidal borescope
P.M. Kearl 323

Numerical analysis of simultaneous heat and mass transfer during infiltration into frozen ground
L. Zhao, D.M. Gray and D.H. Male 345

Mapping groundwater quality in the Netherlands
E.J. Pebesma and J.W. de Kwaadsteniet 364

Book Reviews

Hydrological Problems and Environmental Management in Highlands and Headwaters, J. Křeček, G.S. Rajwar and M.J. Haigh 387

VARIOWIN: Software for Spatial Data Analysis in 2D, Y. Pannatier 387

Global Warming, River Flows and Water Resources, N. Arnell 389
